

GLOBAL AVIATION SERVICES PROVIDER

case study

Metric helps a Global Leader in Aviation Services*

As a global leader in aviation services, this company plays a pivotal role in supporting airlines, airports, and cargo operations worldwide. With a presence spanning multiple continents, it provides ground handling, cargo logistics, travel services, and inflight catering, ensuring seamless operations for customers across the aviation industry.

The Challenge

With a fast-paced working environment and high operational demands, the company needed a solution that optimised workspace efficiency without disrupting daily operations. Key priorities included ergonomic enhancements, improved collaboration areas, and sustainable materials that aligned with corporate values.

GLOBAL AVIATION SERVICES PROVIDER

The Solution

To enhance workplace efficiency, Metric Office executed a tailored refurbishment focused on ergonomic and sustainable improvements. The workspace was redesigned to foster seamless team interactions and adaptability. Bench desks and ergonomic seating were installed to promote comfort and long-term productivity, while eco-friendly materials reinforced the company's sustainability goals. A phased installation approach ensured minimal disruption to daily operations, allowing teams to transition smoothly into their optimised environment.

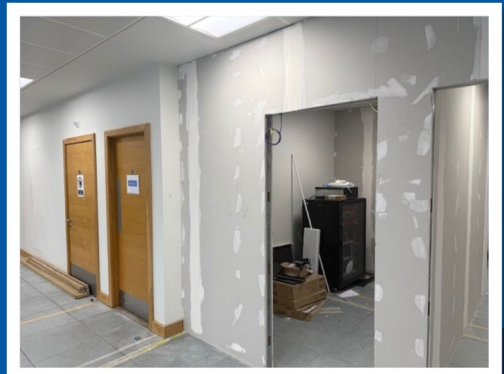

The Refurbishment

When we first stepped into the space, it was a blank canvas—an open-plan shell with no defined areas. Our goal was to create a workspace that was not only practical but also inspiring.

We used high-quality partitioning materials to create sturdy, soundproof walls that complemented the modern aesthetic. Glass partitions were incorporated in some areas to maintain an open feel while allowing natural light to flow through the space.

A functional workspace needs proper amenities. We fitted a kitchen that was designed to be both practical and stylish, featuring durable countertops and ample storage.

Flooring plays a crucial role in defining the ambiance of an office. We opted for a combination of durable vinyl and carpet tiles, ensuring comfort and longevity. The flooring design complemented the overall aesthetic, adding warmth and professionalism to the space.

GLOBAL AVIATION SERVICES PROVIDER

Key Takeaways

- **Workplace optimisation drives performance:** A structured, ergonomic environment enhances productivity and employee engagement.
- **Sustainability matters:** Businesses benefit from eco-friendly office solutions that align with corporate sustainability goals.
- **Strategic execution ensures success:** A phased installation approach minimised disruptions and ensured seamless implementation.
